

NORTH CAROLINA BOARD OF BARBER AND ELECTROLYSIS EXAMINERS

Memo

TO: Board members

FROM: Dennis Seavers

DATE: October 19, 2023

SUBJECT: Adoption of electrology rules

Attached to this memo are two rules for the board to adopt through the permanent rulemaking process. The board will consider these rules at its October 24, 2023 meeting.

The board proposed the rules at its February 28, 2023 meeting. The rules would establish new civil penalties as follows:

- \$5,000 for an individual engaging in electrology or laser hair practice without a license. This amount is the maximum allowed by law.
- Various civil penalties for electrology or laser hair practice schools. Please note that these are for “traditional” schools, not electrology apprenticeship programs. The civil penalties will depend on the nature of the offense and whether the offense has occurred before. The civil penalties cover the following actions:
 - Unlicensed operation of a school;
 - Failure to maintain proper records;
 - Falsifying records;
 - Failing to submit records;
 - Failing to comply with facility requirements; and
 - Failing to comply with the appropriate student-to-instructor ratio.

The board previously proposed these rules through temporary procedures. Commission counsel for the Rules Review Commission believed that the rules did not meet the criteria for temporary procedures, so the board withdrew them. The board can instead propose them through the “normal” permanent rulemaking process.

The board received no public comments on the rules.

Board action

1. If the board still wishes to adopt the rules, it should make a motion to adopt them at the October 24 meeting.
2. I will file the rules with the Rules Review Commission for consideration at its November 2023 meeting.
3. If approved by the Rules Review Commission, the rules will go into effect December 1, 2023.
